

Who is Where Food Comes From Organic?

Our goal has always been to make organic certification accessible to as many farmers, retailers, restaurants and consumer packaged goods companies as possible, while also making sure that it is cost effective. We strive to provide world-class customer service while also streamlining the certification process for each and every customer.

Where Food Comes From Organic offers certification services to our clients at a reduced cost by bundling various certification and verification services and technology solutions with other WFCF divisions.
