| Upcycled Certification | WFCF Gluten-Free Certification | |
| Certified Organic | WFCF Plant-Based Certification | |

Please complete the following sections for each Certification you are seeking to enroll in (if represented below):

Non-GMO Project Verification

Have you ever applied for Non-GMO Project Verification or been verified as a Non-GMO Participant in the past?

Yes ___ No ___

If Yes, are you transferring products Verified by a different technical administrator (TA) ? Yes ___ No ___

If Yes, what TA? _____ If YES, when is your next renewal date? _____

Are any or all of your products currently:

- Certified organic? Yes ___ No ___
- Considered controlled substances under U.S. or Canadian law? Yes* ___ No ___
- Considered medicines or other medical products? Yes ___ No ___
** If you answered YES to Questions 1b or 1c, please be advised that those products are not eligible for the Product Verification Program.*
- Is your company directly involved in development of GMOs¹, biotechnology² or synthetic biology³?
Yes ___ No ___

¹ **GMO or Genetically Modified Organism** – An organism in which the genetic material has been changed through biotechnology in a way that does not occur naturally by multiplication and/or natural recombination; cloned animals are included within this definition.

² **Biotechnology** – The application of: a. in vitro nucleic acid techniques, including recombinant deoxyribonucleic acid (DNA) and the direct injection of nucleic acid into cells or organelles; or b. fusion of cells beyond the taxonomic family, that overcame natural physiological, reproductive, or recombination barriers and that are not techniques used in traditional breeding and selection.

³ **Synthetic Biology (synbio)** – The development of novel, artificial nucleic acid sequences, biological pathways, organisms, or devices or the redesign of existing natural biological systems. **Products derived from synthetic biology are not eligible for Non-GMO Project verification or as inputs to Non-GMO Project Verified products.**

Does your product contain High-Risk ingredients*? Yes ___ No ___

*Alfalfa, apple, canola, corn, cotton, eggplant, enzymes, microorganisms or derivatives of microorganisms, papaya, pineapple, potato, soy, sugar beets, yellow summer squash, zucchini or animal-derived ingredients (i.e., meat, dairy, eggs, wool, hides, honey and/or derivatives of any of these).

Are you required to label your product with an NBFDS* disclosure as of January 1, 2022? Yes ___ No ___

*The National Bioengineered Food Disclosure Standard

If YES, please be aware that goods making a voluntary or mandatory disclosure under NBFDS are **ineligible for Non-GMO Project Verification**. Bioengineered Foods and goods containing Bioengineered Foods cannot attain Verification if a BE disclosure will be made on the Product to be Verified.

What is your potential annual organic revenue (select only one)?

<\$250K ___

<\$10M ___

>\$75M ___

<\$1M ___

<\$25M ___

<\$5M ___

>\$25M ___

Upcycled Certification

I am a: Upcycled Food Association (UFA) Member UFA Associate Member Non-Member

Items can be enrolled and approved in two primary Upcycled categories. Please select the category(ies) you are applying for (check all that apply):

___ **Certified Upcycled Ingredient (UI):** Certified UIs shall have $\geq 95\%$ uniform diverted Inputs which shall be considered single ingredient Inputs with the possible addition of processing aids or other additives as needed. Processing aids and other additives in excess of 5% shall be excluded from the product seeking the designation of certified UI's calculation of $\geq 95\%$ uniform diverted inputs.

___ **Certified Product Containing Upcycled Ingredient(s) (PUI):** A food, beverage, dietary supplement, companion pet food, cosmetic, personal care, or household cleaning product that includes upcycled ingredients and meets the criteria set forth within this Standard and is certified as such. Single or multicomponent inputs (certified as a UI, Less Than PUI, PUI, or otherwise) may be used within a different PUI seeking certification.

WFCF Gluten-Free Certification

Please note: Products compliant with this Standard must be produced without the inclusion or introduction, accidental or otherwise, of the following ingredients or their derivatives. If the product contains any of the following ingredients, *the ingredient may not be used toward compliance with this Standard.*

- Wheat, wheat varieties or derivatives of wheat
- Triticale
- Graham
- Barley
- Rye
- Brewer's Yeast
- Spelt
- Malt

Are you currently doing any gluten testing of incoming ingredients or finished products prior to packaging?

YES

NO

Where Food Comes From, Inc. Certification Cost Estimate Inquiry Form

WFCF Plant-Based Certification

WFCF considers a product to be plant-based if it does not contain any ingredients, materials, or components of animals, animal byproducts, or animal-based derivatives; was not processed, clarified, or finished with any such animal components; was not involved in the animal testing of ingredients, materials, components, or finished products, whether by the supplier, producer, manufacturer, or any other party; and does not contain any known animal-derived genes or animal-derived genetically modified organisms (GMOs) in the manufacturing of ingredients or production of finished products.

Do you have any ingredients you feel WOULD NOT meet this definition?

NO

YES (explain):

The Paleo Diet

The Paleo Diet® does not allow the use of dairy, cereal or pseudo-cereal grains, pulses, grain legumes, potatoes (sweet potatoes and yams are allowed), or added salt and restricts sugars, sweeteners and oils.

Do you have any ingredients you feel WOULD NOT meet this definition?

NO

YES (explain):

Is there anything else you want to let us know about your products, supply chain or operational scope prior to receiving a cost estimate?
